The dogs listed above will be bred together with at least one natural tie or two artificial inseminations. Shipping will be two AI shipments, Bitch owner is responsible for cost of shipping. Progesterone testing is strongly recommended for optimal litter results. Stud fee is due at time of breeding.

A litter is 2 or more puppies born. In the event that the Bitch whelps 1 puppy or the pregnancy is not successful, one repeat breeding will be offered at no additional charge. Progesterone testing is required in order to proceed with the second attempt. If the Bitch does not conceive after the second time, a refund will not be given.

Brucellosis testing is required within 30 days before breeding occurs, test must be negative to proceed with stud. Bitch will be free of ticks, fleas, and parasites. No puppies from this breeding will be transferred to a pet store, agent, broker, or reseller. Bitch owner will ensure female will not come in contact with any other intact males during the heat cycle.
